SUMMARY

I'm a results-driven Software Engineer with 1.6+ years of experience designing and developing high-performance applications. My expertise spans modern technologies, with a focus on delivering user-centric solutions that are both scalable and robust.

EDUCATION

Bachelor of Technology (CSE)

RD Engineering College

07/2017 - 07/2021   Ghaziabad

EXPERIENCE

Software Engineer || React Native/JS

SuveraFresh

October 2024 - Present   Kanpur

- Led frontend development for SuveraFresh app and website, contributing to core UI/UX implementation.
- Implemented Firebase Cloud Messaging, resulting in 80% faster user engagement through real-time notifications.
- Integrated JWT authentication with Refresh and Access Tokens, improving security compliance by 90%.
- Designed and structured app navigation using React Native Stack and Tab, increasing user retention by 60%.

Software Engineer || React Native/JS

Startxlabs Technologies

July 2021 - June 2022   Remote

- Optimized website performance, reducing page load time by 40% through efficient rendering and code-splitting.
- Designed and developed 100% reusable React Native components, accelerating app development speed by 50%.
- Integrated RESTful APIs and collaborated with backend developers in both EdTech and E-commerce projects.
- Applied Agile development practices using Jira, leading to 30% faster sprint delivery and team coordination.

PROJECTS

SuveraFresh Android App - Fresh Raw Food Hub

Tech Stack: NativeWind, TanStack Query, TypeScript, React Native, Redux Toolkit, Firebase

https://play.google.com/store/apps/details?id=com.suverafresh

- Developed a seamless ordering system using React Native, allowing users to purchase fresh raw food.
- Implemented JWT Secure Token Refresh and Access Token mechanism to enhance user authentication.
- Integrated Firebase notifications to provide real-time updates on order status, promotions, and personalized alerts.
- Utilized React Native Tab and Stack Navigation for intuitive and user-friendly app navigation.

SuveraFresh Website - Fresh Raw Food Hub

Tech Stack: Tailwind CSS, TanStack Query, TypeScript, ReactJS, Redux Toolkit

https://suverafresh.com

- Designed a visually appealing and responsive UI using Tailwind CSS and MUI, ensuring a smooth user experience across devices.
- Implemented JWT Secure Token Refresh and Access Token mechanism to enhance user authentication.
- Developed a full-featured cart functionality, allowing users to add, update, and remove items seamlessly before checkout.
- Utilized React Router Dom for intuitive and user-friendly web navigation.

SKILLS

Tailwind CSS	TypeScript	ReactJS	React Native	React Native Paper	Redux Toolkit
TanStack Query	Firebase	JavaScript	Problem Solving	Java	Git
