SUMMARY

I'm a results-driven Software Engineer with 1.6+ years of experience designing and developing high-performance applications. My expertise spans modern technologies, with a focus on delivering user-centric solutions that are both scalable and robust.

EDUCATION

Bachelor of Technology (CSE)
RD Engineering College

📅 07/2017 - 07/2021   📍 Ghaziabad

10th & 12th
Subhash Public Sr. Sec. School

📅 04/2014 - 04/2017   📍 Kanpur

EXPERIENCE

Software Engineer ‖ React Native/JS
SuveraFresh

📅 October 2024 - Present   📍 Kanpur

- Leading Frontend for SuveraFresh app and website, implemented core functionalities.
- Implemented Firebase notifications system for real-time notifications and updates.
- Enhanced security using JWT authentication with Refresh and Access Token mechanism.

Software Engineer ‖ React Native/JS
Startxlabs Technologies

📅 July 2021 - June 2022   📍 Remote

- Optimized React.js website for faster loading also designed reusable React Native components.
- Gained hands-on experience with Agile methodologies using Jira and collaborated closely with backend team.
- Implemented scalable and secure JWT authentication mechanism and Integrated RESTful API.
- Collaborated with the backend team on API integration for EdTech and E-commerce projects.

PROJECTS

SuveraFresh Android App - Fresh Raw Food Hub
Tech Stack: NativeWind, TanStack Query, TypeScript, React Native, Redux Toolkit, Firebase

🔗 https://play.google.com/store/apps/details?id=com.suverafresh

- Developed a seamless ordering system using React Native, allowing users to purchase fresh raw food.
- Implemented JWT Secure Token Refresh and Access Token mechanism to enhance user authentication.
- Integrated Firebase notifications to provide real-time updates on order status, promotions, and personalized alerts.
- Utilized React Native Tab and Stack Navigation for intuitive and user-friendly app navigation.

SuveraFresh Website - Fresh Raw Food Hub
Tech Stack: Tailwind CSS, TanStack Query, TypeScript, ReactJS, Redux Toolkit

🔗 https://suverafresh.com/

- Developed a seamless ordering system using ReactJS, allowing users to browse and purchase fresh raw food and seafood.
- Implemented JWT Secure Token Refresh and Access Token mechanism to enhance user authentication.
- Developed a full-featured cart functionality, allowing users to add, update, and remove items seamlessly before checkout.

SKILLS

Tailwind CSS	TypeScript	ReactJS	React Native	React Native Paper	Redux Toolkit
TanStack Query	Firebase	Problem Solving	Java	Git
